West Virginia Offices of the Insurance Commissioner (WVOIC) Announcement

WVOIC EDI Population Restriction Edit for DN0184 - Insured Type Code

Date: January 9, 2026

Since 2004 the WV Implementation Guide has required that each sender identify the entity for whom data is being sent as either (I) Insurer or (S) Self-Insured on the Trading Partner Profile. Effective December 24, 2025, the WVOIC has implemented a Population Restriction edit (see below) to ensure data reported for DN0184, Insured Type Code is aligned with the Insured information submitted on each WVOIC Trading Partner Profile.

- If the Insurer Type for the Insurer FEIN is listed on WV's TP Profile for the Sender ID (Sender FEIN and Postal Code) is = "Self-Insured Employer" then DN0184 Insured Type Code must = S.
Example: FROI MTC 00 is sent and DN0184 Insured Type Code is not = S:
Trading Partner Profile information:
Insurer FEIN (DN0006): 123455432
Insurer Name (DN0007): Self Insured Employer Inc
Insurer Type: *Self-Insured Employer*
- If the Insurer Type for the Insurer FEIN is listed on WV's TP Profile for the Sender ID (Sender FEIN and Postal Code) is = "Insurer" then DN0184 Insured Type Code must = I.
Example: FROI MTC 00 is sent and DN0184 Insured Type Code is not = I:
Trading Partner Profile information:
Insurer FEIN (DN0006): 543211234
Insurer Name (DN0007): Insured Employer Inc
Insurer Type: *Insurer*

The following error shown on the Population Restrictions table is returned for the above examples:

DN0184 - Insured Type Code

Error 064: Invalid data relationship

Element Error Text (DN0291): DN184 must = Insurer Type for Insurer FEIN on WV TP Profile

Please note: WVOIC is not posting the revised requirements tables currently. This update will be available to view on the next published version.

If you have any questions, please contact the WVOIC EDI Support Team.
